## Bokashi

### Layer Tech

#### Layering HG Bokashi:

- By Layering The HG Bokashi Seed to Harvest Set Into The Medium in a Certain Order The Roots Will Hit Certain Nutrients At Certain Times Perfect For That Stage Of Growth.

**MICROBE BOKASHI**  
 ADD MICRO LIFE TO  
 YOUR MEDIUM

- APPLY ACCORDING TO GAL OF WATER OR GAL OF SOIL IN POT.
- 1TBS PER GALLON EVERY 2 WEEKS - BEST IN SOIL & COCO MIXES.

## **HG BOKASHI BLENDS**

EACH HGB BLEND IS INFUSED WITH ORGANIC FERMENTED PLANT JUICE. & EFFECTIVE MICRO ORGANISMS.

### **APPLICATION -**

### **TOP-DRESS OR IN FEEDING WATER OR PRE MIXED INTO MEDIUM**

#### **HomeGrown** **BOKASHI BLENDS N.P.K**

INCREASE NUTRIENT UPTAKE - BOOST CERTAIN ACTIONS IN THE PLANT - INCREASE CONNECTION IN MEDIUM - DIVERSIFY MICROBE ACTIVITY - INCREASE MEDIUM PRODUCTION

#### **AZOKASHI**      2.2.1

BABY VEG PLANTS - TOP DRESS WEEKS 1-4 MIX INTO TOP LAYER OF MEDIA - USE IN RECYCLING MEDIA - BOOST NATURAL MICROBES - BOOST MINERAL CONTENT -

#### **FOUNDATION & KELP BLEND**      3.2.1

BABY VEG PLANTS & SMALL VEG PLANTS - TOP DRESS WEEKS 3-6 - OR MIX INTO FEEDING WATER OR MIX INTO MIDDLE LAYER OF MEDIA - BOOST NATURAL MICROBES - BASE NUTRIENTS -IRON, CALCIUM, MAGNESIUM

#### **CRAB & KELP BLEND**      4.3.2

MEDIUM VEG PLANTS & LARGE VEG PLANTS - TOP DRESS WEEKS 6-9 OR MIX INTO FEEDING WATER OR INTO MIDDLE LAYER OF MEDIA - BOOST MICRO BIOLOGY IN MEDIA & ACTIVITY.

#### **OCEAN & OYSTER BLEND**      5.4.4

LARGE VEG PLANTS - TOP DRESS WEEKS 9-12 OR MIX IN FEEDING WATER OR MIX INTO LOWER LAYER OF MEDIA - BOOST NATURAL MARINE MICROBE ACTIVITY - CALCIUM RICH

#### **SEABIRD GUANO & KELP BLEND**      2.11.2

TRANSITION/BLOOM PLANTS - TOP DRESS OR ADD TO FEEDING WATER WEEKS 12-15 OR MIX INTO BOTTOM LAYER OF MEDIA - BOOST NATURAL MICROBE ACTIVITY - INCREASE FLOWER SITES -BOOST ORGANIC BLOOM PRODUCTION

#### **CASTINGS MIX INS**      1.0.0

VEG PLANTS & BLOOM PLANTS - TOP DRESS OR MIX INTO FEEDING WATER - PREMIX INTO RECYCLED MEDIA - BOOST NATURAL MICROBE ACTIVITY - BOOST PLANT HEALTH

#### **SEAWEED SUGAR**      1.1.1

BOOST VEG & BLOOM PLANTS - MIX INTO FEEDING WATER - INCREASE RESIN PRODUCTION - INCREASE VEG GROWTH VIGOR 2-5 ML PER GALLON

**HomeGROWN
